- Many sizes available

Materials Used:

- Powder Coated or Stainless Steel

Enclosure Ships With:

- Powder Coated Steel Unit
- Clear Lexan Window
- LCD Mounting Bracket
- Security Bolts
- Gasket
- Cable Entry Grommet

Warranty:

- 5 Yr Indoor, 1 Yr Outdoor

PLC PANEL

Why hide the PLC control system behind a door. There is a BETTER WAY than installing all of the panduit type wireways needed to manage typical/conventional PLC control systems. Our PLC enclosure allows easy access and a great view of your Siemens, Allen Bradley, Opto 22, Wago, Beckhoff, Omron, Phoenix Contact Automationdirect, Sneider Electric, Eaton, etc. distributed I/O modules. We have designed this enclosure to showcase and protect devices for the following Protocol (CIP™) — DeviceNet™, EtherNet/IP™™, EtherCAT™, ControlNet™ and CompoNet™.

Dimensions:

- Small: 18"W, 12"H, 8"D
- Medium: 24"W, 12"H, 8"D
- Large: 36"W, 36"H, 12"D

Materials Available:

- Powder Coated Steel
- Stainless Steel

Enclosure Ships With:

- Steel Case
- Steel Door
- Steel Mounting Plate
- Lockable Latch
- Gasket
- Clear Pastic Window

NEMA Rating:

- 4, 4X, 12

Warranty:

- 5 Yr Indoor, 1 Yr Outdoor

Our PLC Cabinets helps you cut down on your installation costs by using these patented and revolutionary PLC / Termination panels that don't require a single piece of panduit or a back panel, and require very little wire and labor to make them up. One of the many benefits with our panels is that you always see the status of the PLC and I/O card modules, and fuse blocks without opening the panel doors. Our industrial PLC control panels come standard with the same clear shatter resistant plastic window as our computer enclosure stations. You can also order them with a steel door without a plastic window.
